Error sending HTML form data with JavaScript front end through Flask backend to MySQL database
I get the error "400 (BAD REQUEST)" in the browser (dev tools) console when trying to send HTML
Hello World!
This is a collaboratively edited question and answer site for professional and enthusiast programmers. It's 100% free.
Got a question about the site itself? meta is the place to talk about things like what questions are appropriate, what tags we should use, etc.
